Welcome to our site!

The mini Camping lies at the heart of the beautiful landscape of the [Italian Region Marche](#), in the town of [Montelparo](#) , an old and quiet village with 920 inhabitants that is located 588m above sea level.

Our campsite is situated in the wilderness, on a beautiful and green hill overlooking the Sibillini Mountains; just a few minutes drive from the mountains and a few minutes drive from the local characteristics sea.

We are located 1.5 km from the main village, 15 km from the mountains (a privileged starting point for excursions on the Sibillini Mountains, a [national park since 1993](#) and home to a wonderful variety of flora and fauna) and finally 25 km from the sea and beautiful beaches: miles of white sands of the [Adriatic coast](#), beach-lovers cannot fail to be impressed.

The beauty of the colorful fields and medieval villages that surround us will make your eyes sparkle.

Relaxation is guaranteed, we
will
wait you with open arms in the warm Italian season!
